## Jacob Levine

ASSOCIATE

Mr. Levine is an energy analyst with EVA. Mr. Levine contributes to a variety of projects focusing mainly in the power and renewable energy sectors by providing market research and statistical modelling. Projects include: fuel procurement analysis for biomass facilities, distributed generation capacity installation research, retail electricity sales modelling, and regulatory critiques.

Prior to joining EVA, Mr. Levine worked as a Research Assistance analyzing the effects of temperature changes on energy intensity in various countries.

### Education

- George Washington University, B.S. Economics and Statistics.
