

Slagel Exhibit 10A - My calculations VS Original Pleasant Ridge Application
Their data from "Table 3 - PR Sound Analysis Results Summary (GE 1.79-100 Turbine Model)",
given in dB to nearest integer. (4 LNTE)

Turbine Power Output Levels using Table 2 GE 1.79-100, 1000Hz, Standard=102.7, LNTE=101.0
