Michael,

Our current Voting system of the AccuVote Optical Scan and the AccuVote TSx have been used in Livingston County for over 14 years. This system was first sold in Illinois 20 years ago and it's age is starting to show. We continue to test and maintenance the machines, but they still have problems throughout Election Day. Livingston County will need new machines as soon as we can financially afford to do so. The purchase of 40 new Optical Scan units and 40 new ADA Compatible Devices would approximately be \$374,715.

Sincerely,

Kristy A. Masching
