Dear Blake Fawns,

Our new Unisyn Elect Voting Equipment was purchased in 2020. Therefore, our voting equipment that has been used since then is working properly. Livingston County did need new equipment in 2020 because our previous Election Equipment of the Accuvote Optical Scan and TSx ADA device were consistently malfunctioning. The purchase price of the 42 Optical Scan units and 47 Touchscreen units was \$405,568.00.

Sincerely,

Kristy Masching
