

JOB POSTING

Position Title	Civil Engineer I
Department	Highway
Shift	Monday-Friday; 37.5 hours per week; exempt
Salary	To be negotiated
Brief Job Description	Under general supervision performs a variety of responsible engineering work, applying professional engineering principles and practices to a variety of projects on County Highways and Township Roads. Work involves preparing and reviewing engineering plans & specifications for road & bridge related construction or maintenance projects; serving as resident engineer on construction and maintenance projects for roads, bridges, and drainage facilities.
Education Requirements	Four year college level education with a Bachelor of Science Degree in Civil Engineering. Possession of or ability to obtain Engineer In Training (EIT) certification from the State of Illinois. Prefer 2 to 3 years of experience in highway design, construction, and maintenance and bridge construction.
Additional Comments	Reports to Assistant County Engineer and if necessary, the County Engineer. May work extra hours due to contractors schedule or emergency. Oversight and direction may be provided to other technical and laboring personnel.
