

## APPENDIX H - FAA COMPLIANCE

---

**Project Layout - FAA Overview**  
Panther Grove II  
September 12th, 2024

- Wind Turbine Location
- Permanent Met Mast Location
- ADLS Radar Location
- August 2024 FAA OE Location
- ✕ July 2023 Approved FAA DNH Location

Panther Grove 2 Wind Development  
FAA Wind Turbine Filing Dataset

Federal Aviation Administration

The FAA is currently experiencing delays in processing off-airport aeronautical studies. These delays are currently resulting in an approximate 15 additional days in processing time. The FAA will continue to work aeronautical studies on a first come, first served basis. Please take this possible delay into consideration when determining when to submit your case. If your submitted aeronautical study requires priority and 60 days has elapsed since submission, please contact the OEG Specialist for your state with the rationale for your request and it will be reviewed for escalation. The issue causing these delays is actively being mitigated and is expected to be resolved around August.

		Latitude	Longitude			
2024-WTE-6418-OE	PCV2	40-47-28.07	88-55-40.2	724	371	None
2024-WTE-6419-OE	PCV3	40-45-33.16	88-55-39.09	727	371	None

Federal Aviation  
Administration

The FAA is currently experiencing delays in processing off-airport aeronautical studies. These delays are currently resulting in an approximate 15 additional days in processing time. The FAA will continue to work aeronautical studies on a first come, first served basis. Please take this possible delay into consideration when determining when to submit your case. If your submitted aeronautical study requires priority and 60 days has elapsed since submission, please contact the OEG Specialist for your state with the rationale for your request and it will be reviewed for escalation. The issue causing these delays is actively being mitigated and is expected to be resolved around August.
